Web Developer | Data Analyst

JavaScript | React | SQL

I am an aspiring web developer with skills in many languages from plain JavaScript to more advanced frameworks such as React. Highly dependable individual that likes to fine tune things I am working on and learn as I am working. Technology is advancing rapidly, and I like to learn as many things as I can. I also have skills in data analytics, analyzing data with the use of the programming language SQL.

WORK EXPERIENCE

Haz Investments LLC. - *Arlington, TX*

Oct 2021 – till Date

Data Entry

Keep track with business figures i.e., sales and implement some analysis to see where business is heading using excel, keep track of inventory, and make list of products to reup on.
